

User Guide to Scoring and Editing Scores

Introduction

From 2023, we introduce a slightly different way of entering match scores, which we hope you'll find easy, but with the additional benefit that should you make an error, *you can edit it yourself.* This guide takes you step by step through each of the processes.

Log-on

In order to enter or edit a score, you need to be logged on.

This is where you also register your team, or enter competitions – both of which options only appear during the appropriate registration period.

You can only enter or modify scores for matches that you are involved in.

Enter Scores

Click 'Enter/Edit Scores'

The next web page to appear shows all of the current season's matches.

At the time of taking the screenshot, no matches have been entered, so all entries in the right-hand column say 'Enter'.

Edit Scores

There will occasionally be times when an error is made in score entering. With this new feature of 2023, either captain can log-in and edit the match card. Typically, errors will be one of the following: -

- Wrong player selected
- Incorrect doll score entered
- Incorrect leg score entered
- Set/Chased incorrect

Once a score has been entered, the 'Enter/Edit' page display changes to this: -

Welcome Barry of Troutlets			
Date	Venue	Opponent	Enter/Edit Scores
05th May	Home	Carps A	Edit
12th May	Away	Griffindors	Edit
19th May	Home	Swinbrook CC	Enter

You can now edit scores for matches already entered.

As an example, we'll pull up the game against Griffindors and see what's involved.

We'd still advise that it's a good idea to retain a copy/photo of each scorecard until end of season in case a dispute arises.
